

## You Can Do In A Screen Room

You Can Do In A Screen Room Here are ten things you can do in a screen room!

1. Let the children play in it! If you have children, they can play outside while still being protected from insects like mosquitoes and bees.
2. Host a party! Guests will appreciate being able to enjoy the summer while relaxing in your screen room.
3. Watch the big game! If you can't be there and the weather's nice, bring the TV out and watch the game outside. You'll still get some of that outdoor feel!
4. Exercise! If you have an exercise routine, why not do it in your screen room? Enjoy the fresh air while getting back in shape!
5. Take a nap. There's something special about being able to sleep outside on a nice day. It's nice to relax with no cares in the world and the wind gently blowing by.
6. Take care of your plants. If you have some potted plants, use them to decorate your screen room. You can then take care of them without worrying about bees, especially if you're allergic to bee stings.
7. Sleep outside for the night! Enjoy the stars and the fresh air while relaxing for the night.
8. Eat dinner outside! It's much more enjoyable to eat outside when you don't have to worry about flies or other insects buzzing around during your mealtime.
9. Sit in your hot tub while in a screen room. Just sit back, relax and let your worries melt away!
10. And don't forget number ten&hellip;&hellip;
